

BasicLine (monaural & binaural)

Part-No.: 056010-01 / 056011-01

Basicline headsets are the low-end products of the Imtradex headsets portfolio for professional telephony. Like our Businessline headset series, they are also of very low weight and provide a high wearing comfort.

Depending on the working environment, the Basicline is available with one speaker (monaural) or with two speakers (binaural). Due to the second speaker, the binaural version is most suitable for a rather noisy working environment. Even in open-plan offices with increased sound levels, a binaural headset assists to avoid communication problems due to noises around.

The AK1 computer connection cable makes this headset ready for VoIP-telephony. Either use the AK1-USB cable (for USB-connection) or the AK1-SC (for the soundcard) and link it with the QD (Quick Disconnect) plug on the headset.

Technical data:

Microphone:

Pattern:	electret
Directional:	omni-directional
Impedance:	max. 2200 Ohm
Sensitivity:	-36 dB V / Pa, 1 kHz
Frequency:	300 Hz – 4 kHz

Speaker:

Pattern:	dynamic
Impedance:	150 Ohm at 1 mW / 1 kHz
Sound pressure level:	max. 91 dB
Frequency:	300 Hz – 4 kHz

Additional data:

Temperature range:	-20°C to +60°C
Weight:	54 g / 81 g
