

BusinessLine NBD

Part-No.: 088504-01 / 08765288

How to wear / use in call centre

The BusinessLine NBD is a lightweight binaural neck holder headset. The innovation of wearing it around the neck is especially developed for the professional use in call centres. The outstanding characteristic of the BusinessLine NB series is the connection to the earlap, called Open-Ear-Gain Technology, well known in the industry of hearing aids.

This technology avoids covering the earlap by an earpiece or an ear olive. Acoustic signals are conducted through a silicon tube to the edge of the ear. There, the natural amplifying task of the earlap assists to amplify the sound in an inartificial, natural way. Thus, an optimum ratio between signal and noise is achieved.

The AK1 computer connection cable makes this headset ready for VoIP-telephony. Either use the AK1-USB cable (for USB-connection) or the AK1-SC (for the soundcard) and link it with the QD (Quick Disconnect) plug on the headset.

Technical data:

Microphone:

Pattern:	electret
Directional:	noise cancelling (NC)
Impedance:	1600 Ohm
Sensitivity:	-51 dB V / Pa, 1 kHz
Frequency:	150 Hz – 4 kHz

Speaker:

Pattern:	magnetic
Impedance:	250 Ohm at 1 mW / 1 kHz
Sound pressure level:	max. 117 dB
Frequency:	100 Hz – 4 kHz

Additional data:

Temperature range:	-20°C to +70°C
Weight:	55 g
