

BusinessLine XS

Part-No.: 087499-01 / 08765270

Logo options / Colour options

The BusinessLine XS is a lightweight, monaural headset for professional use in call- and control centres. A Spacer-Distance-Clip, available upon request, avoids additional pressure on the ears and enables listening to talking around. Acoustic-Shock-Protection (ASP) as well as a mark to position the microphone ensure best speech quality. The CoolMax® active ear cushions made of breathable fibre provide high wearing comfort.

By standard, this-Headset will be equipped with a noise cancelling NC-Microphone with short gooseneck. Upon request, we alternatively provide an omni-directional microphone. Like the whole BusinessLine series, you can individually customize this headset by choosing a certain colour for some plastic parts and have your brand logo or slogan printed on the speakers.

The AK1 computer connection cable makes this headset ready for VoIP-telephony. Either use the AK1-USB cable (for USB-connection) or the AK1-SC (for the soundcard) and link it with the QD (Quick Disconnect) plug on the headset.

Thanks to valuable acoustic components, suitable for wideband-frequencies, the headset provides a high hear-/talk quality. The Acoustic Shock Protection (ASP) protects the user against impulse noise with sound pressure levels above 117dB.

Technical data:

Microphone:

Pattern:	electret
Directional:	noise cancelling (NC)
Impedance:	1100 Ohm
Sensitivity:	-51 dB V / Pa, 1 kHz
Frequency:	60 Hz – 12 kHz

Speaker:

Pattern:	dynamic
Impedance:	150 Ohm at 1 mW / 1 kHz
Sound pressure level:	91 dB at 1mW / 1kHz
Sound pressure level:	max. 117dB (ASP)
Frequency:	60 Hz – 10 kHz

Additional data:

Temperature range:	-20°C to +70°C
Weight:	52 g
