

AK1-USB

Part-No.: 056194-01 / 056173-06

Voice over Internet Protocol (VoIP)

The connection cable AK1-USB turns telephone-headsets into computer-headsets. Next to the USB plug & play functionality the integrated control offers a variety of settings. Thanks to the QD (Quick Disconnect) plug every single user can connect its own Businessline headset easily.

Due to the USB interface, the AK1-USB works by plug-and-play and does not require any further installations of drivers beforehand. Also, no sound-card is required. Only connect the USB plug to the computer and use the same headset for Voice Over IP.

The control offers the following adjustments:

- Volume control
- Mute control of the microphone with LED display
- Mute control of the speaker

Technical data:

Control:

Dimensions:	80 mm x 23 mm x 14 mm
Electricity:	by USB-connect
USB-plug:	Type A compatible with USB 1.1 and USB 2.0
